Misled by too many different opinions don't really know  
which one is mine need some times to adjust my  
thoughts and set my mind straight again  
I need some time to feel  
I need some time to think  
I need some time, for myself!  
Been following all these instructions almost forgot how  
to think for myself in this intellectual stimulations or is  
this institutionalisation?

I need some time to feel  
I need some time to think  
I need some time...for myself!  
Too many expectations but no motivations
