Alienated from this world  
Disconnected from my mind  
Comfort my decomposed soul  
You almighty, mercyleless God

Dehumanized in your highness  
Projected into subreal  
Embodied through the weakness  
Is this world what you call weal?

[Chorus:]  
Structureless life's pieces  
Tearing my inside  
My blood burns your churches  
Alienated from the fake God

Structureless life's pieces  
I cannot remember the whole  
My thoughts my only weapons  
Alienated freedom calls
