"Castles in The Air"

Visit "[Castles in The Air](#)" on MotoLyrics.com

Here my head up in the clouds
I feel I'm spinning around
Dreams will come and go
But this is here to stay
So forever this way

Hold me now, hold me now
And say the things you say
Hold me now, hold me now
I pray

So here we are at the start of this road
Together building castles in the air
Words we don't need without you I don't breathe
Forever building castles in the air

So softly like a sigh
Sea where the white horses ride
It all seems so real
A feeling deep inside
So our time will go on

Hold me now, hold me now
And say the things you say
Hold me now, hold me now
I pray

So here we are at the start of this road
Together building castles in the air
Words we don't need without you I don't breathe
Forever building castles in the air
