We desecrate, We violate,  
We burn to book of lies  
We feed our Hate, eternal Fate, soon He will arise  
We gather in the Night, to sacrifice ad feast  
We shall call the dead, We shall hail the Beast

We possess the powers to slain the son of god  
We possess the powers, to make him choke in blood  
We're the infernal legion that gorge upon Hellish lust  
We chant the words of Satan,  
We'll turn your god to dust

We open wide the gates, We unleash powers of Hell  
We unlock the doors to where Evil Spirits dwell  
We dance in rings of Fire to bring eternal War  
We'll rape the infant jesus, molest that fuckin' whore

We summon up, in Blasphemy,  
The true Nocturnal Lord  
In His name We'll raise our swords,  
and join His battlehorde  
Our mission is to Desecrate,  
and forever chime Death's bell  
We have gained immortality through our cult in Hell
