When there's villain's in your town  
When there's hatred all around  
Violence in your area, mass hysteria  
When we arrive we'll be bringin it down

International Superheroes of Hardcore  
Yeah we're takin' it over  
International Superheroes of Hardcore

We'll be jumpin over big stuff  
We will crush them no matter how tough  
Violence in your area, mass hysteria  
When we arrive we'll be bringin it down

International Superheroes of Hardcore  
We're takin it over  
International Superheroes of Hardcore

Yeah that's right punk  
You better check yourself before you wreck yourself

We'll save your mom  
We'll save your dog  
We'll save your house  
We'll even save your grandma  
We'll save the world  
We'll save the day
