Talking crap and you think we're whack
You better watch out Madball's got our back
You think we suck and our sounds a disgrace
You better watch out cause they'll punch your face

ISHC 1 2 3 4!

You can't stop us now
You won't stop us now
You can't stop us now
You won't stop us
No no no don't try it no way no

Talking crap and you think were whack
You better watch out Madball's got our back
You don't like our band and you think we suck
When we come to town you better duck
