[music and lyrics: Boeru]

Inside me live together  
Angels and demons.  
Inside me lay together  
Earth, heaven and hell.

Through my veins flows a Styx of emotions,  
While in my head lays the Moon.  
In my eyes lives, in a cyclic motion,  
The ancient icon of the Universe.

Inside me grows together  
Fire and ice.  
Inside me run together  
Suns and planets.

In my heart lays a poisoned weed  
Which ceaselessly grows and grows  
And which hides, which hides the seed  
From where the man will blow up.

I am the Universe, I am the only source,  
I am the Alpha, I am the Omega.  
I'm the future and the past,  
'Cause my ego will last  
Forever!
