If the breaks are set to break  
It's just as safe on the outside, tonight  
And I want it  
If it's the storms and the tide  
If the lighthouse...

And I want that  
I embrace the storm and the night  
Ooooooh

And do the waves have to say, 'now'?  
What do the waves have to say now?  
Now  
Slow down  
I let the waves have their way now  
Now  
Slow  
And if the waves have their day...

And I want that  
Here I've been living, I'm using it for myself  
I'll put it out but  
Begin, begin  
Here I've been listened, I'm living within  
It won't be urgent, I'm sinking again  
The lighthouse
