"Abortion By Muriatic Acid"

I'm dying in the place of my conception, my future -
genetic scum, what
corrodes my home, injected in the uterus, pain all over
my surface, they don't
want my life, do they, I'm a negative element in their
life, the negative
element which will be killed, by muriatic acid, I feel
blood, I feel blood in
my liquid, I don't know why, they want my death, I
pucker up my face, who will

help me, in my future - ash, who feels the unborn tears,
in mixture of blood
and the foetic liquid, it's so sinister to me, I'm a fetus
bringer of sorrow
and pain, they feel antipathy for me, my tissue is
corroded by muriatic acid,
who knows that I feel pain - science, my life draws to an
end, who killed me?
