We are lost
(We are so far away from home)
We are left
(We are so far away from home)
We are home
(We are so far away from home)
We are safe
(We are so far)
We are lost
(We are so far away from home)
So free
(We are so far)
To me
(We are so far away from home)
And safe
(We are so far)

There's no waiting
And there's no way
I'll be staying right here
We are reaching out our hands to hold in place
In times of need
We are hoping for a love that will shake the ground
For you and me

(We are lost)
Cause I've been passed waiting for something to
happen
(We are left)
And I've been waiting here so long
(We are home)
(We are safe)
(We are so free)
(We are home)
(We are safe)

And as we fall...
