"Chariots Of Fire"

Visit "[Chariots Of Fire](#)" on MotoLyrics.com

This planet is turning
Our tires are burning
Start up the engines I'm ready to go
You caused a commotion
And got my devotion
We should be Bonnie and Clyde on the road
I feel fascination
A kicking sensation
This is my turn and I'm striking for gold

Let's fly this truck through the sky
Worlds colliding
We keep on riding

Oh, chariots of fire
Higher and higher, ascending above
Oh, chariots of fire
Share my desire, creation of love
Oh, chariots of fire
Higher and higher, ascending above
Oh, chariots of fire
Share my desire, creation of love

It's my dedication to rule aviation
I'm certified with the highest degree
I strive for perfection
You have the connection
Now I've got God shine His light down on me
It ain't necessary to call Virgin Mary
When you have the gift to set my spirit free

Let's take this train through the sky
Worlds colliding
We keep on riding

Oh, chariots of fire
Higher and higher, ascending above
Oh, chariots of fire
Share my desire, creation of love
Oh, chariots of fire
Higher and higher, ascending above
Oh, chariots of fire

Share my desire, creation of love

Those were the halcyon days
The days when we walked on the scene
Those were the halcyon nights
The lights shining bright on the screen
When we dreamed of creating machines
Waving sounds to our dreams

I feel fascination
A kicking sensation
This is my turn and I'm striking for gold

Let's fly this truck through the sky
Worlds colliding
We keep on riding

Oh, chariots of fire
Higher and higher, ascending above
Oh, chariots of fire
Share my desire, creation of love
Oh, chariots of fire
Higher and higher, ascending above
Oh, chariots of fire
Share my desire, creation of love

It's a brand new day
Things will go my way
Every night I pray
Everytime I say
It's a brand new day
Things will go my way
Every night I pray
Everytime I say
