After the rain
I could see you crying
suffer the pain
like a river drying
after the rain
you're hiding from the daylight

Deep in a groove
only walls around you
nowhere to move
the state I found you
lonely in the cold night

you're not alone
you're not the only one who hurts
you're not alone
this is the moment of rebirth
I've seen your heartache
I feel the pain you hide inside
you're not alone
come, let me hold you

castle and sand
there were promises
futures were planned
you hang onto castle and sand
suffering from stagefright

you're not alone
you're not the only one who hurts
you're not alone
this is the moment of rebirth
I've seen your heartache
I feel the pain you hide inside
you're not alone
I stand beside you

[and when you walk in the valley of darkness
you will feel you will be left alone
I will stand there and wait right beside you
I will guide you home]

come on home
[come on home]

you're not alone
you're not the only one who hurts
you're not alone
this is the moment of rebirth
I've seen your heartache
I feel the pain you hide inside
you're not alone
you're not alone

you're not alone
