Nothing but heartbreak
Nothing but pain
People on people
Drive each other insane

Why can't we live
And let live like they say
Stop all this madness
That's causing dismay

Nothin' gets nothin'
Except what you give
Nothin' gets nothin'
You get what you give

Because I can feel
Your soul from here
I'll reach right in
And steal your fears

Why can't we live
And let live like they say
Stop all this madness
That's causing dismay

Nothin' gets nothin'
Except what you give
Nothin' gets nothin'
You get what you give

Out of the darkness
And into the light
You only get out
What you put into life
