The fear is paralyzing

Second gear for flight

The atmosphere is tantalizing

Savor every bite

Stand tall, stick to your guns

Might make you scared but they can't make you run

Stand tall, stick to your guns

Show them what you're made of

Take my hand, we will command

Fear nothing, no one

Speak to me, I'm hearing you

A message from the front lines

Stand tall, stick to your guns

Might make you scared but they can't make you run

Stand tall, stick to your guns

Show them what you're made of

Out of the past, our hope will last

No second best for this one

Take my hand, we will command

Fear nothing, no one

Stand tall, stick to your guns

Might make you scared but they can't make you run

Stand tall, stick to your guns

Show them what you're made of

Stand tall, stick to your guns

Might make you scared but they can't make you run

Stand tall, stick to your guns

Show them what you're made of
