"Startin' To Shine"

Visit "[Startin' To Shine](#)" on MotoLyrics.com

Take a look, what do you see?
A million faces, a million dreams
We've seen the things you won't believe
A touch of life is my release

Energized, no time to waste
A spark of life is always chased
Tried and true a twist of fate
No matter what, I always wait

I've got something to say
I can't wait another day
I've got something to say
I swear that it's true
There's nothing else I wanna do

I know which way I'm goin'
I'll just take my time
I can't help it showin'
But it's startin' it's startin' to shine
It's on my mind

I've got things runnin' round my brain
I'm livin' life lovin' everyday
Expectations started yesterday
An avalanche is on its way

I've got something to say
I can't wait another day
I've got something to say
I swear that it's true
There's nothing else I wanna do

I know which way I'm goin'
I'll just take my time
I can't help it showin'
But it's startin' it's startin' to shine
It's on my mind
