Pulling away slowly  
Scurrying on  
Wending through the land escape  
An absence of data

Void of all emotion  
Hoping this day is my last

Chasing the unobtainable  
Believing my own lies  
On the path of self destruction  
Strangled by all emotion

Blur the edges of my memory  
Pain through the breathing  
Drown myself to help forget  
Silence all my thinking

[Solo]

Chasing the unobtainable  
Believing my own lies  
On the path of self destruction  
Strangled by all emotion

Blur the edges of my memory  
Pain through the breathing  
Drown myself to help forget  
Silence all my thinking

[Solo]

There's no believing  
There's no returning  
There's no beginning

Blur the edges of my memory  
Pain through the breathing  
Drown myself to help forget  
Silence all my thinking
