

Intro "Come Inside"

Let me come inside
I'll keep you satisfied tonight
If you want me if you need me
Turn down all the lights
I'll make you feel alright tonight
Come inside, come inside

I'm thinking about you
The last time we made love
And I fantasize so many things that I dream of
I wanna do with you baby
And tonight won't be the same
I wanna come inside I like to hear you call my name

Slowly I'll give it to you baby
Only if you promise me you'll let your mind run free
Grab a hold and love me totally
I wanna slip and slide dip and dive
Do everything to make it alright tonight
Just let me come inside oh baby

Baby just imagine I can do anything
Please can I set your body on fire or sooth your soul
with ease
Just a kiss I'll taste your sweet sweet lips all of the
passion I have inside of me
I know you won't forget

Let me rub you down move in closer now hold on tight
and don't let go coming home together baby
