Is it far from the place
From the last time I saw your face
Is it far from the time
From the last time when you were mine

Do you remember the lights in the sky
We hear the voices crying through the night

Get outta my head (6x)

Well if you catch me sheddin tears, mama don't ya worry
The pain's alright, it's the love that's deadly
I'm gonna be well safe, it's just a hard memory
Now everybody's chattin bout dem fish inna de sea
Say I can't take to wait, I think I lost my bait
Who would've thought I'd believe in fate
One last grasp while I'm sinkin fast before it's too late

Is it colder where you are
Walk around with your tired heart
Is it closer than it seems
When happiness is just a part of your dreams

Don't wanna remember the love that I knew
Don't wanna remeber what I fell into

Get outta my head (6x)

I want you gone
Baby dig no longer in my head
Don't you run inside me
Go away forever
Leave me alone, all alone
Get outta my head, you bitch

Scan my brain doc, show me dem rotten cells
The ones we'll have to kill to improve my mental health
I'm gettin nowhere quick, I'm feelin sick
The more I try to move, the more it sticks
One shot led to nine or ten

Lookin for a bliss, I need to feel high again
Said I don't wanna go write another sad song
Load up the bong and left it hit my mind strong
You can take her off the earth, put her in the dirt
But before ya bury her smek, sure she knows how it
hurts
Loved what she was never worth, curse of day of she
birth
Roger, throw her inna de sea in her iron shirt

Get outta my head (12x)
