The way you creep and you crawl and you slither  
When it's come to getting what you want you're a killer  
A snake in the grass with your camouflage pass  
But u never had to fight or struggle for your dinner  
Check the headlines, and criticize  
Mister know it all with your ras seeing eyes  
But every comment that you make only acts as a  
disguise  
Pretending that you care pretending that you're wise

Sleep in silence, sleep in silence  
As I watched over you  
As you breathe in  
And you breathe out  
And the world stand still  
Doesn't make a sound

And I cry and I cry and I don't know why  
And I hope tomorrow will be better  
And I hide the thoughts deep in my mind  
I still hope tomorrow will be better  
And the tears keep raining  
Like bullets around my head, oh  
And I cry and I cry and I don't know why

Some man a take life for granted  
Ehwn them no get what they want they can't  
understand it  
Some no know what they got look how they still want  
more  
Sitting back doing nothing saying life is a bore  
It's a pity that you're pretty  
'Cause you're rotten to the core  
And when ya she'd tears ya self nah know what for  
For every little issue you want start a friggin war  
Because every time it drizzle you go act like it poor

Sleep in silence, sleep in silence  
As I watched over you  
As you breathe in  
And you breathe out  
And the world stand still

Doesn't make a sound

And I cry and I cry and I don't know why  
And I hope tomorrow will be better  
And I hide the thoughts deep in my mind  
I still hope tomorrow will be better  
And the tears keep raining  
Lik bullets around my head, oh  
And I cry and I cry and I don't know why

This live is full of light make sure you use it to glow  
Every mistake that you make you can use that to grow  
If ya slip of and trip don't get sunk down low  
Stumble on your feet, jump back inna de flow  
Huff and buff and blow and blow  
Take what you need cause I'm going always have more  
Whether dem a friend of whether dem a fo  
But before you get that me going have to let go  
Critics and back biters  
What is ya want take a bite of  
Does it make you feel tougher  
When you see a man suffer  
I guess I'm a struggler  
But I'ma struggle for my right y'all  
So when you see me with my lighter, better  
Stay away from the fire  
Bunn ya!!
