Dream about the day I go back home, all so wanted  
Memories so better sweet, took for granted  
Everything around me, all the warm emotions,  
Now I'm stuck here in the cold

Chorus:

Waiting for you to come around  
Don't know how long I can have been pretending to  
hold on  
Just stand outside with my hands of high  
I know you notice, hope you hear me, please don't pass  
me by

Even though it wasn't always fun, all surrounded  
Picture perfect, who's got days? I was grounded  
But lighted by the beauty, everyone outthrew me  
Maybe never cared at all

Chorus:

Waiting for you to come around  
Don't know how long I can have been pretending to  
hold on  
Just stand outside with my hands of high  
I know you notice, hope you hear me, please don't pass  
me by

Sucker for love, out in the cold...

Chorus:

Waiting for you to come around  
Don't know how long I can have been pretending to  
hold on  
Just stand outside with my hands of high  
Hope you notice, hope you hear me, please don't pass  
me by

Out in the cold, reachin' out high  
Sucker for love, out in the cold...
