Lying down violated, beaten and despoiled  
Watching her efeminated, let her blood paint the  
ground  
Disinfecting you from sin by lewding on your naked  
body  
This horrid torture remains as I'm violently touching  
your skin  
Screams never heard, abused to the extreme  
This horrid torture remains and nothing can stop your  
demise  
Reaped - she looks like she's dead  
But she's just been raped  
Raped - Abandoned - Disgraced  
Raped on the floor, dead naked whore  
Disinfecting you from sin  
By lewding on your naked body  
Screams never heard  
As I'm violently touching your skin
