Like nazi death camps
They're pushed to the wayside
Massacre
Bodies piled up each day

Infanticide
The innocent ghosts cry
Infanticide
The killing of our kind

Hacked to pieces
From inside
Salt solution homicide
A tragedy within the womb
A generation of genocide

God alone can take life
But not you
Sactity destroyed
Union
From conception until birth

46, it's human
Can you hear the children scream?

The unborn, defenseless
We push to the wayside
Slaughtered for convenience
In the name of "freedom of choice"

Infanticide
The innocent ghosts cry
Infanticide
We're killing off our kind
Infanticide
The innocent ghosts cry
Infanticide
Stop killing off our kind
