We'll melt away in the boiling sun
Like a worm-bird terrarium.
You went to bat with a loaded gun.
Why do you lie? Why do you lie?

We'll start to blister and come undone.
You bring out the worst in us.
Swallowing down my very cause.
Why do you lie? Why do you lie?

Rise and shine.
And don't forget that... Don't forget that...
All we are is scars on those we loathe.
This is how it feels (this is how it feels) to be letdown.
All I ever wanted was you around.
Maybe then you'd know (maybe then you'd know) it
gets old.
Maybe then you'd know it gets old.

Why is this, my amorous one?
You've done all but clogged my lungs.
But even then my air is gone
And nullified with your lies.

Let's be honest just this once.
Deceit runs in your blood.
We both know what you've done.
So, don't Lie! So, don't lie!

Rise and shine.
And don't forget that... (Don't forget that)
All we are is scars on those we loathe.

This is how it feels (this is how it feels) to be letdown.
All I ever wanted was you around.
Maybe then you'd know (maybe then you'd know) it
gets old.
Maybe then you'd know it gets old.

Hey, What'd you say to me?
I don't want to feel anything at all.
Hey, What'd you say to me?

I don't want to be anything at all.

Oh, what'd you think of me?
What'd you think of me, if anything at all?
Oh, it's what you said to me.
It's what you said to me.

Call what you came to be.
What you came to be: Scam.
A lie just set in bone...
A knife right through my soul.
Lies are what you said to me.
I want you to please beg of me.
Beg of me...
For love or what you call your home.
What you're not is solely me.
Solely me.
