"Candy"

Driftin' in school, Daddy's a fool
We know someone's on your mind
Women whose face, velvet and lace
Curlin' couplets into time and space

Meet the man who needs you now
Can you give your love away like candy?

Down on your knees, trimmin' the trees
Can you imagine what it's like?
Lovers lament, general dissent
Doctor's orders are unkind and bent

Meet the man who needs you now
Can you give your love away like candy?

Very profound, merry-go-round
Spinning innocence and dreams
Can you believe, all you perceive?
Love is never what it seemed to be

Meet the man who needs you now
Can you give your love away like candy?
Candy
