I think, I'm gonna feel better when tomorrow comes  
When I see the sun through my window  
I think that everything is going to be all right  
Though I know that you have found another

I hope you understand that I still love you so bad  
But when tomorrow morning comes  
I hope that you will see the sun shine too  
Come shining through

I hope you understand that I still love you so bad  
But when tomorrow morning comes  
I hope that you will see the sun shine too  
Come shining through

I think, I'm gonna feel better when tomorrow comes  
When I see the sun, when I see the sun
