I was born about forty years ago  
Out of the blue under a red hot scorching sun  
The labyrinth of an ordinary life  
So dumb I am the guardian of the jail  
Day after day, night after nightmare

All my friends know they are under my control  
This cigarette is not the last one I will smoke  
This chair is not the place where I will die  
I will wake up with a beating heart

[Chorus:]  
So many Demons  
And they're living in my mind  
Demons and they're preying on my brain  
So many Demons  
And they're ruining my life  
Demons, they're driving me insane  
Forever. You feel in my mind [x2]

Every body has a dark secret to hide  
Once upon a crime  
In the black heart of my past  
Everybody wants to heal their scars of sorrow  
I want a better world for my children  
The demons from the depth of my soul  
Burn my heart and my mind

[Chorus (x2):]  
Demons, they're driving me insane  
In the moonlight  
Where you are  
They're living in my mind  
You're eating me alive  
You're killing me inside  
Can I get away
