I was wandering like a ghost  
With no place to run  
The net is closing in  
Trapped in this dead end

Chorus

The solace, the end I...

Await

The solace, the end I...

Await

Take me oh...."With your soul I play"

Take me now..."She is made of clay"

Just a miracle..."You are nothing but a pawn now"

Life's a giant cemetery  
The illusion's to believe  
That we can't get out of this place  
When we only leave the grave

Wait a minute my son  
I'll make your dream come true  
You' re nothing but a pawn  
You' re in my hands now

Now I can't believe my eyes  
Has he heard my voice  
This so familiar shadow  
Coming from the fog

Thanks my God, show me now
