The only dust of light  
In this tunnel of my life  
A tiny handful of love  
In this river... of nightmares  
Hands up to the sky  
Screaming my bitterness  
You don't hear me where you are, you are...  
Life's not easy, it's not easy, without you  
Life's not easy, it's not easy  
Better for me to die

[Chorus:]  
Save me [x3]  
Kill me [x2]

You were the only one who told me:  
"Yes I know!"  
I fell into your eyes, then I grew  
I could only stand by you, & my gun  
Life's not easy, it's not easy, without you

[Chorus]

Like a red rose growing in... the wilderness  
The sun after the rain, my last hope  
It's burned up with your soul  
Oh my dear!  
Life's not easy, it's not easy, without you
