## "The Strongest"

Since the day you made me die  
The witch opened my eyes  
And told me "Steal his power"  
"You'll rise from your ashes"

I feel the earth beneath my feet  
I will reach Heaven's gates  
And I will face the dark one  
And burn his dirty mind

[Chorus]  
With the passing of time  
I will reclaim  
My life with her  
With the passing of time  
I'll be the strongest

I promise you I'll make you cry  
And soon you will implore  
You will be the king no more  
Of your kingdom of pain

You'll end up six feet under  
I will dispose of you  
You can't re-enter my life  
You'll be just a bad memory
