Know you would hate this if
You were here
Told me about it while
You were here

All you had you gave while
You were here
I'd have a chance to repay
If you'd been here

Just when you think
You're there the most you
Find out then your
Doors are closed

I could have been there I
Could have been there I
Could have died girl with you there

One thing that I learned
Don't expect a thing so you
Won't get burned
Leaving something

Loveed you in life
Hate you in death the
South of no north you left
