gaining life in the darkest corners
that no one sees
infinite powers chopping souls in two
falls out from the draining increasing seed

distant traces leading us into temptation
a fainted hidden concious killing inspiration

(pre-chorus):
in a world where the exit can't be found
where the walls close in forcing us forever down
schismatic symptoms
growing strong within our minds

(chorus):
floating hopelessy
breeding endelssly
schismatic injective therapy
survival
a sarcastic hope
suffer massive insanity

changing all from white to black

(lead: Hansen)

extinct ourselves in this selfmade war
where no one learns
the process slow, but yet so effective
leave behind a dying world

twisted faces breathing death in massive doses
as life fades away in giant airy decomposition

(repeat pre-chorus)

(repeat chorus)

(lead: Schultz)

(lead: Hansen)

(bridge)

population joining death
in their crownded tombs
let my whisper end in thunder
as i no longer can't ignore our doom

distant traces leading us into temptation
a fainted hidden concious killing inspiration

(repeat pre-chorus)
(repeat chorus)

drained
left alone in the deepest ocean
defeat
the final 'cause this never ends

(lead: Schultz)

thoughts
a thing that only causes devastation
travel
through schismatic injective therapy

(lead: Hansen)
