Tice blue pearls  
The terror of the kiss  
You're the reason I'm high  
Presence of guilt, the meaning of bliss

Forever enmeshed  
So sweet this is  
It's the chemistry of restlessness  
A dream in bone white

Cyanide to the soul  
This instant hunger  
It's the chemistry of restlessness  
All bound to the soil  
The soil of the heart  
I'll be there waiting for you  
Will you come? Breathing you  
I'm flying, searching...  
It's a matter of seconds  
A matter of years  
I am, if just for now  
A better man for your priceless smile

If not this what will make me last?  
I take all the blame, after all I invited it in

Cyanide to the soul...

I'm falling, searching

[solo]

Cyanide to the soul...
