Satisfied, I'm on the ground
I don't hear no sight or sound
Everyday I go to work
With my civil's stance to the made
She likes to come with me
She thinks I'll lose my-y-y sanity
Talks all day to security
I think her boss replaces me

Ooh and I say breakaway
Gonna find someday
And I breakaway
She finds a way
And then breakaway
You're gonna find some days
Breakaway
She'll find some way
Breakaway
You'll find someday
And I breakaway
She finds a way
And then breakaway
She finds some day

On a plane and far away
Clouds expires her birthday
Touching down on solid ground
See the little horses I've found
She likes to come with me
She thinks I'll lose my-y-y sanity
Talks all day to security
I think her boss replaces me

Ooh and I say breakaway
Gonna find someday
And I breakaway
She finds a way
And then breakaway
You're gonna find some days
Breakaway
She'll find some way

Breakaway
You'll find someday
And I breakaway
She finds a way
And then breakaway
She finds some day

Satisfied, I'm on the ground
I don't hear no sight or sound
Everyday I go to work
With my civil's stance to the made
She likes to come with me
She thinks I'll lose my-y-y sanity
Talks all day to security
I think her boss replaces me

Ooh and I say breakaway
Gonna find someday
And I breakaway
She finds a way
And then breakaway
You're gonna find some days
Breakaway
She'll find some way
Breakaway
You'll find someday
And I breakaway
She finds a way
And then breakaway
She finds some day
Breakaway
