It's no use pretending
That I understand
The hide and seek we play with facts
It changes our demand

Tilt my hat at the sun
And the shadows they burn dark
Light me and I'll burn for you
And the love song never stops

I like the look in your eyes
When you talk that certain way
I love the day in the life
When you know that lover's way

Minding my own business
When you came along
The temperature's running hot
The fever was so strong

Tilt my hat at the sun
And the shadows they burn dark

Light me and I'll burn for you
And the love song never stops
Don't stop it

It's always an adventure
The fantasies we make a fact
Your the secret I desire
Well, I can't keep that to myself

When we're not together
It doesn't feel so bad
We could be so far apart
But our love's not sad

Yeah

It's no use pretending
That I understand
The hide and seek we play with facts

It changes our demand

Tilt my hat at the sun
And the shadows they burn dark
Light me and I'll burn for you
And the love song never stops
Don't stop it
