We're all running fast tonight
Rocket shoes on our feet
But there's a planet where it's right
I'm sure we'll get there by next week

I could've been a doctor
I could've been a lawyer
I could've been a scientist
I could've been normal
Especially in the daylight

They say you don't worry while in flight
The darkness is like a fog
I won't get scared, I won't get tired
I've been in space so damn long

I could've been a doctor
I could've been a lawyer
I could've been a scientist
I could've been normal
Especially in the daylight

The Earth is just a big blue dot
Can't see the cars and planes
But there's a planet where it's right
I'm sure we'll get there by next week

I could've been a doctor
I could've been a lawyer
I could've been a scientist
I could've been normal
Especially in the daylight

I could've been a doctor
I could've been a lawyer
I could've been a scientist
I could've been normal
Especially in the daylight

I could've been a doctor
I could've been a lawyer
I could've been a scientist

I could've been normal
Especially in the daylight

Especially in the daylight
