Yeah, we're not the only ones
Who bleed for the love that's lost
Trust like the air we breathe
Live you've got to lose some sleep

Everything you do for me
Everything I do for you
Everything you do for me
No one else comes close to you

You laugh when the cool gets cold
Cry when the punch lines told
Fall into the arms of God
Pray that your soul's not sold

Change keeps us moving on
Alone as you walk through the crowd
Live, we're gonna lose some sleep
Trust like the air we both breathe

Anything I do for you
Anything you do for me

The way you see the world
The way you see the world
The way you see the world
The way, yeah

Everything you do for me
Everything I do for you

The way you see the world
No one else comes close to you

Ah yeah, ah ha
Ah yeah, ah ha
Ah yeah, ah ha

No one else comes close to you
Ah yeah, ah ha
