"Go West"

Visit ["Go West"](#) on MotoLyrics.com

Wash your face in the wind
Walk away from the fall
When lover frees you
Count the pleasures and the call

This time you see me like I see you
Got a way to thrill you through and through
Alone with me won't leave me cold
Love you it won't let go

I called you if you can call me
The price is pleasing and the reason is easy
Sooner or later you won't be able to start it
Love me and then you will know

This time you see me like I see you
Got a way to thrill you through and through
Alone with me won't leave me cold
Love you it won't let go

This time you see me like I see you
Got a way to thrill you through and through
Alone with me won't leave me cold
Love you it won't let go

Love you it won't let go
Love you it won't let go
Wash your face in the wind
Love you it won't let go

Won't let go
Let go, let go
