"Here Comes II - New Version"

Visit "[Here Comes II - New Version](#)" on MotoLyrics.com

Here comes the rationalization
Here comes the song I know
There's a change of weather comin'
There's a change in me and you

I found some questions to the answers
The dancing flames of romances

Freedom is intoxicatin'
It's a lizard in your hand
Don't you worry about the future
I need some in my plan

I found some questions to the answers
The dancing flames of romances

I found some questions to the answers
The dancing flames of romances

Here comes my kamikaze
Here comes God's top ten
Nothin' to be done to stop it
Nothin' to get in its way

Here comes the rationalization
Here comes the song we know
There's a change of weather comin'
There's a change in me and you

I found some questions to the answers
The dancing flames of romances

I found some questions to the answers
The dancing flames of romances

Flames of romances
I found some questions
