Is that how you feel  
There's nothing there at all  
If that's what's in your heart

I walk the golden mile  
Flesh of gold and long in tooth  
I see your tracks  
See the stars sparkling by  
I feel the world's afraid, ha

I can hear a melody  
It's drifting off the street  
Our love is never here  
And the melody keeps ringing in my ears

Is that how you feel  
Why there's nothing there at all  
If that's what you want  
If that's what's in your heart

I walk the golden mile  
Flesh of gold and long in tooth  
I see your tracks in the cold white snow  
I walk the golden mile  
I feel the world's afraid  
See the stars sparkling by  
I feel the world's afraid, ha  
See the stars sparkling by  
Our love is never here  
I walk the golden mile  
Tell me when you're living here  
I walk the golden mile  
I walk the golden mile  
I walk the golden mile  
I walk the golden mile  
I walk the golden mile, ha  
See the stars sparkling by
