"Shine Like It Does"

This is the power since time began
Every single hour that we have known
And from each moment, all that is left
Sleep of the innocent, just one desire

Shine like it does into every heart
Shine like it does and if you're looking
Well, you will find it

This is the story since time began
There will come a day when we will know

Shine like it does into every heart
Shine like it does and if you're looking
You will find it

Shine like it does into every heart
Shine like it does and if you're looking
You will find it

You will find it, you will find it
You will find it, you will find it
