"The Answer"

Visit "[The Answer](#)" on MotoLyrics.com

I am like you, sure of difference
For our reason, without treason
Hoping if we fall down
You say, all things broken into pieces

All of you take time
Win free, sufferin?
Wait through all love
Straight to your head, feel like

I am like you, sure of difference
For our reason, without treason
Hoping if we fall down
You say, all things broken into pieces

All of you take time
Win free, sufferin?
Wait through all love, all love
Straight to your head, feel like

I am like you, sure of difference
For our reason, without treason
Hoping if we fall down
You say, all things broken into pieces

All of you take time
Win free, sufferin?
Made into, all love
Straight to your head, feel like

All your life
All your life
All your life
All your life
All your life
