The world is always changing
You can see it every day
But in a tragic situation
You just can't hide yourself away

So try a little kindness
'Cause it shouldn't be that hard
You're shining in the darkness
When you open up your heart

Your love is all we need
To bring us together
Don't leave it to me
Nothing's for free
It comes down to us

Hungry babies on television
Can you feel the shame?
We've got to keep on giving to one another
'Cause it's all gonna happen again

Why don't you try a little kindness
'Cause it shouldn't be that hard
Just think about what binds us
And find a new place to start

Your love is all we need
To bring us together
Don't leave it to me
Nothing's for free
It comes down to us

Your love is all we need
To bring us together
We're not indestructible
We're some kind of miracle
Happens every day

Your love is all we need
To bring us together
Don't leave it to me
Nothing's for free

It comes down to us

Your love is all we need
To bring us together
We're not indestructible
We're some kind of miracle
Happens every day

It comes down to us
It comes down to us
It comes down to us
It comes down to us
It comes down to us
It comes down to us
It comes down to us
