I walk this mile
Like anyone
What could be found
In this sweet, damaged smile?

We are lost, we are found
We are thrown together

Would you take my hand?
Would you take my hand?
Let's go

I walk this mile
Like anyone
What could be found
In this sweet damaged smile?

The cage is found
Fool's gold inside
Is there a key to the
Bars of the mind?

We are lost, we are found
We are thrown together

Would you take my hand?

You look for the love
You just get skin
You turn around
And the changes begin

We are lost, we are found
We are thrown together

Won't you take my hand?

Takes a second for your world to change
Satisfaction's what you give away
Sucks you in, spits you out again
Picks you up and drives you down again

Losin' track of what you always claimed
Changing the way of everything again

Certainties with the life I lead
Certainties with the love we share
Certainties always leave itself

In a single second
In a single second

Takes a single second for your world to change
Sucks you in and spits you out again
Throws you down and picks you up again
Satisfaction's what you give away

Takes a second for your world to change
Satisfaction's what you give away

We are lost, we are found
We are thrown together
Would you take my hand?

Would you take my hand?
Would you take my hand?
