Step to the farthest side of my dreams
Be careful of what you might see
So careless inside I'm dying
Slowly
Sail into my widest dreams
Wrapped up like a littlelebum's shoelace
High strung but I am trying
Hopelessly

[Chorus:]
On my own
Cast away
Trapped and caught in a dream
Darkened skies, tidal waves
But I am movin on

See through the hallowed eyes in my dreams
A psycho traumatic hypnotic scene
A mountain of dust to ponder
Over

On my own
Cast away
Trapped and caught in a dream
Darkened skies, tidal waves
But I am movin on

Well I'm blind
Reactions too late.
I'm behind
But catch me I'm movin on
And on...

On my own
Cast away
Trapped and caught in a dream
Darkened skies, tidal waves
But I am movin on

And on...
