I left Houston 'round two a.m. in the middle of a pourin'  
rain  
Drove all night to Oklahoma, scared I'd never see you  
again  
I found you in Tulsa, hopin' you'd agree to come on  
home with me

I've been feelin' like one lone star lost in the midnight  
blue  
Darlin' you're still deep in my heart  
And there's nothin' I won't do  
But I can't get back to Texas without you

I never wanted to see the end of those Amarillo  
summer nights  
I'd give anything to hold you again 'neath the Austin  
city lights  
Say you'll come back baby, we can find our dreams  
down in Abilene  
I've been feelin' like one lone star lost in the midnight  
blue  
Darlin' you're still deep in my heart  
And there's nothin' I won't do  
But I can't get back to Texas without you

I've been feelin' like one lone star lost in the midnight  
blue  
Darlin' you're still deep in my heart  
And there's nothin' I won't do  
But I can't go back to Texas  
But I can't go back to Texas  
But I can't go back to Texas without you  
I can't go back to Texas  
I can't go back to Texas  
Without you
