(chorus)

Everybody loves a star

1,2,3,4,5, Chill Will and Barry Bee make the crowd
come alive

And check out the science I'm about to droop
because....

I'm like a lion

From Mount Zion

Upon the hill move closer

Feels like a roller coaster

With a thrill just drooping

And never stopping

Until it reach every Hip Hopper

Or Bee Bopper in the streets

A man of mission

Tradition, plus

Fun and action

And Get Fresh

Won't rest

Until the job is done

Lights, camera, action

Now I've seem stars in all different forms

Some are ambitious and love to perform, alot

Some drive up and down the block

Like a big shot

And hey, Why not?

'Cause the girlies are with it

And look at you as a Czar in a car

A neighborhood super star

Romeo for thou

There you are

Just driving and ruling

Learning back, cooling

Growing and showin and knowin

Girlies be droolin

About you and

Not about to about face

Can't leave your place

Got your whole neighborhood lost in space

You destroyed your community
Killed your unity
Smashed all dreams,hopes and opportunities
You know what?I'm not mad at you
You just doin' what you seen the next man do
Now every kid on the block
Is huggin on your jock
And you frontin like you a really real hard rock
Soft as a pebble
Working hard for the devil
But you and the devil are on a whole different level
You got a chance to grow
'Cause you know
That the man who made "All the way to heaven" and "
The Show"
Is coming extra firm and full of determination
Collaboration of a new creation
Giving you,the insensitive of who you are and
remember

(chorus)

Here's a real short story of a girl I knew
Who was very close friends of the Get Fresh Crew
She was livin' col' wrong
Hung out all night long
That's why I had to mention her in this song
She had a real nice shape
Got high as an escape
And just loved to hear a DEF hip-hop tape
Of the latest,greatest MC clones
And the name right now I'm gonna leave unknown
But she was too quick
Too slick and trick
But was a sure vick
For many men who was out to stick
And caress her body
Him and everybody young and dumb
And was a stone cold hotty
Workin' 9 to 5 right on the Ave
For what she have
And not need
Need and not have
And when I drive by
She always say " Hi"
And I'm not that fly
That I can't reply back
Even though
I know she's not up to par

Everybody loves a star
