It's an everyday battle  
Just tryin' to break even  
No, there ain't no gettin' ahead  
When you're just gettin' by  
But she's standing on the front porch  
When I get home in the evening  
That's how I know everything's gonna be all right

I've crossed rivers with her kisses  
Come through hard times with her soft touch  
I don't know how but she makes it look easy  
Getting me over mountains with her love

There are days I wanna give up  
Declare the world a winner  
When the bills and the dog gone boss  
Won't cut me no slack  
But when we're turnin' these lights down  
And I'm lyin' there with her  
There ain't a rock on the road of life  
I can't get past

I've crossed rivers with her kisses  
Come through hard times with her soft touch  
I don't know how but she makes it look easy  
Getting me over mountains with her love  
Getting me over mountains with her love
