You still scared, I'll be scared too, it's cool though just  
holla back aight.

[Verse 1]

All alone and I'm feeling wanted  
Try to wait but my body's calling, you're the one so why  
don't  
you come and rescue me,  
I'll be here while you on your way, counting down till I  
see your face,  
hurry up cause I love the way you rescue me.  
Now you're here, come on out, the rain soaking wet  
body glistening, finally we could do something so  
rescue me,  
Can't believe how it's going down,  
I'm so obsessed with this love I found it got my head  
spinning  
round and round just rescue me.

[Chorus]

All night long Take me away to another place,  
rescue me save me, save me save me all night long  
Take me away to another place rescue me  
Save me, save me, save me

[Verse 2]

I come alive when I feel your thouch  
and I can drown In this pool of love, you could get what  
I'm thinking of  
Come rescue me, what you think couldn't be replaced  
if you were gone I would find a way to get you back,  
cause I love the way you rescue me, laying here with  
you in the dark  
I always knew you could shift my heart,  
when I'm with you I don't want to stop so rescue me,  
only you can fulfill my need take me away from this  
agony,  
I want to live out my fantasy just rescue me.

[Chorus 4x]
