Divided by loyalty, surrounded by emotion  
Nobody under here, remembers any mercy at all  
We stay down  
Deciding the borderline  
Maya, did no-one tell you ?  
I couldn't have made you mine  
'Cause I feel your pain more than my own  
All the love gone astray  
There will be hell to pay this time  
For those of us born to die  
There'll be none to testify  
Time and time again I skin the world, keel it over  
Spinning on it's side, beginning as it ended  
Through these diamond eyes  
Maid of Morphine settled in my side  
Did she intervene ?BR  
Don't know where I know you from  
Time and time again I've lived enough in silence  
It's getting harder now to keep the violence in me  
Someone I once was, raised upon a gallant rider's knee  
Mortal memories lost among the unrecalled  
Set the cross of fire (if I live)  
These are the only ones (if I've loved)  
Remember who they are  
If I look, I see them everywhere  
Don't know where I know you from  
Told me, go the way of your heart  
I'll be waiting for you  
But wherever you are, you're not inside me now  
Told me, try to sleep, I will come  
But I'm still waiting for you  
And wherever you are, I'm still inside you now  
I'm never going to cut through without you now  
If I get ascension or die  
All the love that was mine denied  
All the love that you qualified  
Like a desert I'm open wide  
There's nowhere for me to hide at all  
For your love, I can never go back  
Every one of us is herded and contained  
Not a single one invited

Voices circulate around the musty hall  
And the kerosene's ignited  
Through the rising flames that lick against the flesh  
Incandescent in the crossfire  
Do my eyes betray the longest night o
