A Friend the greatest thing in life
A Friend can not be bought at any price
A Friend will help you through the day
And he will never let you down or look away

A Friend he got a helpy hand
A Friend tell him and he will understand
A Friend watch over you at any time
And he will never let you down or look away

A Brother may not be a friend to you
But a friend will always be like a brother to you
A Brother may not be a friend to you
But a friend will always be like a brother to you

A Friend will do both for your rang
A Friend will come in darkness with a light
A Friend forgive you for your sins
And he will never let you down or look away

A Friend can see your suffer for mine
A Friend will cheer you up until you smile
A Friend is most important to you
And you will never let him down or look away

A Brother may not be a friend to you
But a friend will always be like a brother to you
A Brother may not be a friend to you
But a friend will always be like a brother to you

Yo, it's a unique foundation that I'm standing on
It's based on different people and personalities I were
lie on I ryme on
This song is just a show of appreciation of hopes
appreciation of loves appreciate goes the
Dice is tossed and I have my loss but everytime I felt
low I had someone close
To place my boat on the biggest of oceans were fast
sails over my head that keeps my devotion and tag
I don't lackshit as long as you are with me for good
times and bad man

You're all I've ever had...
You're all I've ever had...

This is Show'n'Tell and Byz.
And this goes out to all of our friends and everybody
we love.

A Brother may not be a friend to you
But a friend will always be like a brother to you
A Brother may not be a friend to you
But a friend will always be like a brother to you

A Brother may not be a friend to you
But a friend will always be like a brother to you
A Brother may not be a friend to you
But a friend will always be like a brother to you

A Brother may not be a friend to you
But a friend will always be like a brother to you
A Brother may not be a friend to you
But a friend will always be like a brother to you

A Brother may not be a friend to you
But a friend will always be like a brother to you
A Brother may not be a friend to you
